Hello Steve –

I am writing to request that you remove the walkway that protrudes out into the common area of Jack London Square, as permit 19-85(B) executed by Ray Gallagher as an agreement to abide by the terms of the document, does not allow you to install anything outside of the 4,500 square foot footprint as described in the permit.

Additionally, since you are indicating that you will not remove the walkway this email serves as notice that a formal letter will follow to document the current violation of permit 19-85(B).

Thank you,

Maryann.
